Available to all families inside and outside the DCBHS System of Care
Parent managed and staffed
For Information on parent support groups call: 856-507-9400
Families may call the Family Support Organization without going through the Contracted Service Administrator.
Family Based Services Association of New Jersey

All referrals to the DCBHS System of Care are made through the Contracted Systems Administrator by call **1-877-652-7624**. A clinical assessment determines the level of care a child needs. There is stabilization to preserve the child's residence. Access to services will be managed by the parent. Case Management assists the child and parent to determine and use appropriate services. Care Management helps a family create a Child and Family Team that enables the child and family to develop an Individual Service Plan (ISP) for the child.

The New Jersey Department of Children and Families

Child Protection, Welfare, Education and Permanency, Child Behavioral Health, and Abuse Prevention

Department of Children and Families (DCF)

Division of Child Protection & Permanency (DCP&P) Child Protection Services Permanency

www.state.nj.us/dcf/about/divisions/dfcp

The Division of Child Protection & Community Partnership (DCP&P) is New Jersey's child protection and child welfare agency within the Department of Children and Families. Its mission is to ensure the safety, permanency and well-being of children and to support families. DCP&P is responsible for investigating allegations of child abuse and neglect and, if necessary, arranging for the child's protection and the family's treatment.

The Child Abuse Hotline (State Central Registry) receives all reports of child abuse and neglect 24-hours a day, 7-days a week. Reports requiring a field response are forwarded to the DCP&P Local Office who investigates.

Division of Children's System of Care (DCSOC)

Child Behavioral Health Services

<http://www.state.nj.us/dcf/about/divisions/dcsoc>

DCF's Division of Children's System of Care (DCSOC) serves children and adolescents with emotional and behavioral health care challenges and their families; and children with developmental disabilities. CSOC is committed to providing these services based on the needs of the child and family in a family-centered, community-based environment.

For questions about or to access behavioral health services for children and youth, call the 24-hour, toll-free Access Line at:

1-877-652-7624

DCF involves families throughout the planning and treatment process in order to create a service system that value and promotes the advice and recommendation of the family. A system that is friendly to families and one which provides them the tools and support needed to create successful life experiences for their children with emotional and behavioral challenges.

Division of Prevention & Community Partnership (DPCP)

Prevention of Child Abuse & Neglect

<http://www.state.nj.us/dcf/about/divisions/dcpp>

The Division of Child Protection & Community Partnership (DFCP) promotes the health, well-being and personal safety of New Jersey's children and families by working together with parents, caregivers, organizations and communities to ensure an effective network of proven support services, public education and community advocacy to prevent maltreatment.

Education Services

DCF's Office of Education (OOE) provides intensive 12 month educational services and supports to children and young adults ages 3 through 21. The severity or uniqueness of their needs requires removal from the public school setting for a period of time. A successful return to school and participation in community life are goals for all OOE students.

These State and federally compliant education programs are designed for students who:

- Exhibit severe cognitive, physical, behavioral and emotional disabilities;
- Exhibit a variety of moderate to severe learning disabilities;
- Are at risk of school failure; and/or
- Are pregnant/parenting teens (programs are available for infant/toddlers of parenting teens).

Regular and special education programs are individually designed and provided to these students in the least restrictive environment.
